Platinum Software Development Company with its co-founder Anton Dzyatkovsky has become a member of IEEE, the world's largest technical professional organization!

Monday 29 March, 2021

Platinum Software Development Company praises its acceptance into the world's super tech organization after its services make it to the first echelon of crypto stars

Platinum Software Development Company has become an official member of the Institute of Electrical and Electronics Engineers (IEEE), the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity.

The top-notch services of Platinum Software Development Company have caught the attention of the crypto community on account of its innovative solutions. That's the main reason behind us becoming a member of the IEEE, along with Anton Dzyatkovsky.

`We always strive to be at the forefront of innovation in the crypto sphere. This acknowledgment from the most experienced organizations wanting to take technologies to the next level is a huge and pleasant bonus in the eyes of the community. It's such a great honor for us to be a member of IEEE. We will do everything in our power to comply with the high standards of this super-tech organization!'- states Anton Dzyatkovsky, co-founder of Platinum Software Development Company.

About IEEE and its benefits

To date, the IEEE has more than 419,000 members in over 160 countries.

Its main purpose is to collaborate on world?changing technologies, from computing and sustainable energy systems to aerospace, robotics, communication, healthcare, and beyond.

It is managed by a group of elected volunteer members.

IEEE membership helps support IEEE's main purpose, which is to strengthen technological innovation. It enables affordable student membership, funds university program accreditation, and helps introduce technology careers to young people around the world.

About Platinum Software Development Company

There are 3 products in the Platinum ecosystem that are ruled by a decentralized DAO - called "Q DAO".

Q Defi Dashboard

A cross-chain aggregator (supporting popular chains like Ethereum, Binance Smart Chain, Polkadot, Avalanche, Solana, Huobi ECO Chain, TRON, and Zilliqa) that offers a dashboard with which liquidity providers can track their investments.

Q DeFi Rating

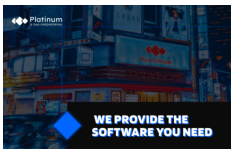

The creation of this profound and trusted rating platform is one of the most important goals of the company. This platform offers audits and creates up-to-date ratings of projects in the DeFi sphere.

QDAO Crypto Custody

Created in cooperation with BitGo for institutional holders and family offices that want to store their crypto assets safely. All funds are kept by BitGo and are insured for $100,000,000.

Customers can create a DeFi dApp using RUST / SUBSTRATE or SOLIDITY / VYPER or launch a dAPP on Polkadot / Kusama, Ethereum, TRON, or Binance Smart Chain.
