Powerball jackpot climbs to $570M: Wavelotto.com has everything to know from drawing times to lottery results

Wednesday 29 September, 2021

The Powerball lottery jackpot continues to climb after no one matched all six numbers after Monday night's drawing.

The new jackpot soared to an estimated $570 million with a cash option of $410.1 million. According to WaveLotto.com, Wednesday's drawing will be for the game's eighth largest jackpot.

“I imagine there are lottery players all over the world dreaming about what they would do if they are lucky enough to win a $570 Million Powerball jackpot ,” States CJ Jensen, from WaveLotto.com

The only way that someone could win a Powerball jackpot is by playing the Powerball lottery. In the past, buying Powerball tickets meant traveling to the United States to purchase those tickets in person, but now with the help of WaveLotto.com you can play the lottery from the comfort of your home.

Jensen is spokesman for WaveLotto.com, a premiere online lottery ticket purchasing service. “Millions of people from all over the world, are using our service to purchase their Powerball tickets,” Jensen says. “We are seeing a lot of activity from Latin America as well as all over Europe!”

Here is how it works.

“According to the rules of Powerball, you do not have to be an American citizen or resident to play American lotteries,” Jensen explains. “By utilizing the online lottery ticket purchasing services of WaveLotto.com, you can participate in Powerball draws with official tickets with the same chance of winning as someone who directly purchases their own tickets.”

Playing the lottery online at WaveLotto.com is a simple process:

1. Sign up at WaveLotto.com

2. Select the Powerball lottery

3. Choose 5 numbers (from 1-69) on the playing form

4. Choose 1 ‘Powerball’ number (from 1-26) in the orange field on the form

5. Confirm your ticket purchase

“When ordering Powerball tickets online with us, in the US our local agents will purchase them on behalf of our customers,” Jensen says.

A small surcharge is added to ticket prices to cover the cost of this service. After being purchased, each ticket is scanned and uploaded to a customer’s account before the draw. With this scanned version of the ticket and email confirmation, customers can rest assured that they have full ownership of their tickets.

Here is some additional information about the Powerball:

Powerball numbers and results

No one matched all six numbers for the Monday, Sept. 27 drawing. The numbers were 21, 22, 39, 44, 60 and the Powerball is 12. The Power Play was 2. All of the latest results are published on WaveLotto.com

When are Powerball draw days?

Powerball draws occur three times a week, on every Monday, Wednesday and Saturday.

What time is the Powerball drawing?
