

Preact Joins Prestigious Microsoft Dynamics 2018/2019 Inner Circle

Tuesday 31 July, 2018

We are thrilled to announce that Preact has been awarded the 2018/2019 Inner Circle for Microsoft Dynamics.

Inner Circle status is extended to the top 1% of Microsoft Dynamics partners worldwide and affords its members ongoing executive sponsorship and privileged support from Microsoft.

This year's Inner Circle members were acknowledged at Microsoft's annual Inspire conference which took place between July 15-19 in Las Vegas. Inspire provides the partner community with an opportunity to learn about Microsoft's road map for the upcoming financial year, establish connections, experience the latest product innovations and develop new skills.

An Inner Circle Summit will take place later this year where members will have a unique opportunity to share strategy and network with Microsoft senior leaders.

Cecilia Flombaum, Microsoft's One Commercial Partner Business Applications Business Lead, says of the membership: "Your outstanding performance has placed you in an elite group of our most strategic Microsoft Dynamics partners from across the globe. I want to thank you for your deep commitment and devotion to your customers, as well as your commitment to business excellence. We are extremely excited to have you a part of this prestigious group!"

"We are incredibly proud to be awarded membership of the Inner Circle," commented Preact's MD, Selom Bulla. "To be recognised by Microsoft as one of its top of business applications partners globally is a wonderful reward for all of our team's incredible work in providing first class solutions and support services to our customers. This accolade is a validation of our focus and commitment to Dynamics 365. We are incredibly excited about the product road-map and what Microsoft's continued investment will mean for our clients in supporting their successful digital transformation."

About Preact

Preact is a UK based Microsoft Gold Partner specialising in delivering sales, marketing, customer service, project service and field service solutions based on Microsoft Dynamics 365 business applications.

Our clients are small and mid-sized businesses, and enterprise teams, working in multiple sectors including telecommunications, non-profit, IT services and training. Through our professional services we support clients before, during and after the implementation of their Dynamics 365 systems, helping them to maximise the value of their investment.
