Prestige Flowers First to Sell Extraordinary Double-Flowering 'Roselily' in UK

Monday 23 May, 2016

Major online florist Prestige Flowers are proud to offer a new and exciting allergen-free bouquet "Roselily" - a blend of beauty and sophistication with features from both roses and lilies available for the first time in the United Kingdom.

This rare variety of lily has very unique characteristics
that go beyond its vibrant and beautiful appearance. The Roselily® has double-flowering lilies which open resembling a rose, this separates
it from any other variety of lily. They
are also 100% pollen free and pet friendly, this means anybody with allergies
need not suffer. Another feature of this
variety of lily is it will typically last four days longer than Oriental lilies
giving it a lifespan of 12-14 days when properly cared for. Some individuals will appreciate its odorless scent which is far from the somewhat usually strong smell of pollen.

The Roselily® Oriental lily really is a wonder and a credit to the vast Innovations seen by Flora Holland and Dutch growers. Currently only two growers in the world produce this unique stem making it extremely rare . The bouquet is available now for next day delivery when ordered before 9pm and retails for £24.99. It's the perfect flower arrangement for anybody who previously suffered from pollen in lilies, found the smell too overpowering, have pets or simply just love beautiful flowers.
