ProjectSet's Approach to Covid-19

Monday 20 April, 2020

ProjectSet helps Universities and Employers cope with Covid 19

Online internships platform offers free services to help students complete their internships and projects remotely during lockdown

ProjectSet today announced its decision to offer its online internship platform free of charge to all employers, students and universities worldwide till 31st August 2020. This will help the community to continue with its planned internships and project work on ProjectSet's online platform.

"To counter the spread of coronavirus, the academic community around the world had to migrate online without much time to plan or prepare" said Sachin Jaswal, the Head of University Relations at ProjectSet, "so we decided to open up our platform to the global community to help them cope with their internship and project-based-learning commitments. We believe it is the right thing to do."

The service will be progressively rolled out across different countries during the next few weeks. University students, educators and employers in most countries will be able to access and use the platform free of charge till 31st
August 2020, by signing up online.
