Prolifics UK Names New General Manager

Tuesday 8 September, 2020

LONDON, UNITED KINGDOM, September 4, 2020 – Prolifics UK, a leader in software engineering consulting and digital innovation, is pleased to announce the appointment of Frank Mulligan as the company's new general manager. He will lead both Prolifics UK and Prolifics Testing in serving new and existing clients with application modernisation, digital transformation, testing and quality assurance initiatives.

Mr. Mulligan joins Prolifics UK after a 26-year career with IBM, where he held high level roles in software services and sales. His leadership comes at a time when clients are looking for innovative solutions to outpace their competition in an uncertain, changing business landscape.

"Prolifics was well-known to me as a vital IBM partner," said Mulligan. "Throughout the UK, Europe and the rest of the world Prolifics has become synonymous with high standards and outstanding customer satisfaction. I was drawn to Prolifics by the fact that it is large enough to address any client's needs, yet agile enough to pivot as those needs and business requirements change. I'm honoured to be here, and I look forward to adding to our already solid base of clients and tech partners."

Satya Bolli, Prolifics Chairman & Managing Director, said, "We're pleased to welcome Frank to Prolifics. With his strategic planning, operational expertise and relationship skills, we know our clients and partners are in good hands. Under his leadership, Frank will also focus on the growth of Prolifics Testing and strengthening its synergies with Prolifics UK. Frank is poised to help take Prolifics UK to the next level."

Mulligan joins Prolifics UK during an exciting time for the company, which has recorded solid year-over-year growth. He will lead an organization that attracts highly skilled engineers, architects and consultants who maintain current certifications in key open-source and vendor technologies from AWS, Talend, Red Hat, IBM, AppDynamics, MuleSoft and MongoDB. In addition, the UK team can draw upon the expertise and worldwide reach of Prolifics global. This includes Prolifics' offshore team in Hyderabad, India, which also has a high level of certification in vendor technologies.

About Prolifics UK

At Prolifics UK, we help organisations excel in digital innovation. We're a bespoke systems integrator with deep software engineering expertise and we serve as a trusted adviser to many leading UK businesses in many different industries. Our architects and engineers unlock the value of data through APIs, integration, data transformation and Cloud-Native development. Prolifics Testing is a consultancy offering software testing services and industry-accredited software testing training courses. Both Prolifics UK and Prolifics Testing are part of Prolifics global.
