psHEALTH appoints Healthcare Software Expert Rob McGovern to Executive Management Board

Thursday 6 March, 2014

Seasoned Executive Brings Extensive Track Record of Sales and Account Management to Leading Healthcare Delivery Software Company

psHEALTH, the UK leading enterprise software company for healthcare and homecare delivery, mobilisation and outcome optimisation, today announced that Rob McGovern, formerly Sales Director of Dynamic Change and Allocated Software, has been appointed to the Executive Management Board of psHEALTH as National Accounts Director.

Rob has more than 15 years of sales and account management experience, including more than 8 years in the healthcare software industry. In his career, Rob has consistently developed strong customer relationships and focussed on delivering value to both NHS and private healthcare organisations.

“The expansion of psHEALTH’s Executive Management Board will help our continued success and growth,” said Ingolv Urnes, Founder and Director of psHEALTH Ltd. “Rob is utterly focussed on solving the customer’s problem and he will be instrumental in developing our mobile apps for nurses and homecare software. In addition, his experience will help us integrate with existing scheduling and rostering systems and other clinical systems. Core to our strategy is to help our customers join up systems and leverage existing investments in IT and software.”

“psHEALTH has an exciting portfolio of mobile working and case management solutions for home healthcare, homecare and other healthcare providers”, said Rob McGovern. “I am passionate about how software can enable healthcare organisations improve the quality and safety of their services and so produce better outcomes for patients. Core to psHEALTH's offering are automation and mobile apps - both of which help our customers in health and social care achieve these objectives. I am excited about working with the three founders, Abhishek Agrawal, Mindy Daeschner and Ingolv Urnes, and to be part of the team to build a large, successful UK health and social care software business.”

About psHEALTH:
psHEALTH is the UK’s leading provider of enterprise software to drive efficiency and better outcomes in health and social care. Award-winning case management and mobile solutions deliver the tools required to transform and manage services. psHEALTH solutions help office and field staff work more effectively, ensure compliance and better document health outcomes. Central to psHEALTH’s approach is the focus on joining up systems and leveraging customers’ existing investment in IT and software. Over 20,000 clinicians use psHEALTH solutions in their work and several of the largest and most respected organisations in health and social care have chosen to work with psHEALTH. psHEALTH is based in London.
