Quantum Generation™ Limited Acquires StealthCrypto®, for a New Economy, Sovereignty & Communications Without Boundaries

The acquisition adds Quantum Cyber Security for a new age of communications to Quantum Generation™ Limited's Ecosystem

BVI, 7-10-2019 Quantum Generation™ Limited, the world's first and only quantum mesh, blockchain satellite constellation for the largest decentralized N2N™ mesh network satellite constellation acquired StealthCrypto® assets. The acquisition facilitates building a stronger QG™ community development with incentivized, self-sustainable, quantum mesh network based on blockchain technology. The StealthCrypto® assets will be rebranded to become part of the QG™ Community that will provide the speed of fiber with the ubiquity of satellites.

"We are a new economy, sovereignty and communications without boundaries and decentralized incentivized ecosystem that ensures that ensures and cryptocurrency markets thrive," said Rick Sutcliffe, legal and compliance department Quantum Generation™ Limited. "StealthCrypto® ground quantum mesh network and Quantum Cyber Security solutions for a new age of communications is a perfect acquisition. We see total disruption and potential to transform industry-leading product and services of StealthCrypto® under the QG™ brand to further broader adoption."

StealthCrypto® Phone, Cloud and WIFI connect to peer-to-peer cloud storage, telecommunications, communications, IOT connections, blockchain, exchange and, quantum mesh network, and its powered by StealthCrypto® incentive-based Ecosystem

Selling StealthCrypto® to QG™ will accelerate our overall vision of transforming our global infrastructure in communications, blockchain, fintech, quantum security solutions, and more. We provide 24/7 access around the world under a decentralized platform that is secure and private. You don't need 5G, 6G, 7G, 8G, etc.; you only need QG™, a movement for the 21st century. The new team of Germany, BC, India, and Philippine-based developers will continue to build out the product roadmap announced by StealthCrypto® and will be under one consistent message and brand QG™ Quantum Generation Movement™.

Quantum Generation™ (QG™) will employ a dual token system. The QG™ security token will provide token-holders with pooled profit sharing, and the StealthCrypto® QMN™ (Quantum Mesh Network™) utility token will serve as a payment currency, which will also serve as a payment currency within the Quantum Generation™ ecosystem. QMN will also enjoy the benefits of QG™ future partners, who will offer a ten to fifteen percent discount on purchases made with QMN tokens.

QG™ global services and products will accept QMN™ as a payment option, and QG™ will integrate QMN as a new decentralized global currency accepted for payment around the world. QMN™ will also continue its road map for the IEO under the QG™ compliance, and all utility token holders will have tokens reissued and ready for exchange, enabling token-holders to buy and sell the QMN Utility token freely. Quantum Generation™ Limited, is based in BVI and will operate and scale its offering under Quantum Generation™ Limited's compliance leadership.

About – Quantum Generation™ Limited is located in BVI and has built a QG™ ecosystem with QSAT™ (QubitSat™) LEO Satellite blockchain technology for distributed ledger applications. Powered by quantum communication technology for data collecting, quantum computing, smart city deployment, data storage. QUBIT blockchain nodes are used for data processing and secure constellation data storage and uses proprietary quantum cryptography technologies for quantum communications, teleportation, number generation, and key distribution. QG is dedicated to building a quantum mesh blockchain network that is impervious to disasters and infrastructure failures; one that is always connected, anywhere anytime, 24/7 with lightning speeds. Products and services include QSAT™ Blockchain Satellite constellation, Off Planet Exchange - QUBIT Exchange™ QBanking, QPhone, QWifi, and QFlat panel antennas with quantum secure cryptography solutions. It is infrastructure technology that is safe, secure, and autonomous.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING

These statements involve known and unknown risks, uncertainties and other important factors that may cause the Company's actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. Forward-looking statements may include, but are not limited to, statements relating to the Company's current and projected operations, financial results, business and products. In some cases, you can identify forward-looking statements by words such as "anticipate," "may," "believe," "could," "should," "estimate," "expect," "intend," "plan," "predict," "potential," "forecasts," "project," and other similar expressions. Such forward-looking statements do not guarantee future performance and are subject to known and unknown risks and uncertainties. We can give you no assurance that any of the events anticipated by the forward-looking statements will occur or, if any of them do, what impact they will have on our future results, performance or achievements. Many important factors could cause actual results, performance or achievements to differ materially from any future results, performance or achievements expressed in or implied by the Company's forward-looking statements, including the risk factors described. Many of the factors that will determine future events or achievements are beyond the Company's ability to control or predict. You should not place undue reliance on forward-looking statements. The Company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in its expectation with regard thereto or any change in events, conditions, or circumstances on which any such statement is based.
