****The King of UFOs: A Documentary Exploring the British Royal Family's Fascination with UFOs, Crop Circles, and Ghosts – Now Streaming on Amazon Prime and Tubi****

The King of UFOs, a captivating new documentary, dives into the British Royal Family's longstanding intrigue with UFOs, crop circles, and paranormal phenomena. The film is currently available to stream on Amazon Prime and Tubi.

Directed and written by ufologist and author Mark Christopher Lee, the documentary reveals claims from a palace insider that the late Queen Elizabeth II was briefed on the famous Rendlesham Forest UFO Incident of 1980. This event, which took place at the RAF Bentwaters airbase in Suffolk, involved a reported UFO landing and interacting with US military personnel. Often referred to as "The British Roswell," the incident has long been a subject of intrigue.

According to the palace insider, Queen Elizabeth II was briefed by Prime Minister Margaret Thatcher in 1983 following a headline that read: "UFO Lands in Suffolk." Thatcher allegedly told the Queen that the truth behind the event was so extraordinary that it could never be revealed to the public.

Lee explains:

*******"What this insider has shared with me aligns with what the late ufologist and author Georgina Bruni learned from Margaret Thatcher during an informal conversation. Thatcher told Bruni, 'You can't tell the people!' This led Bruni to believe that the events at Rendlesham were so bizarre and frightening that the official story would never be made public. Bruni even speculated that the entity that interacted with US servicemen could have been from either the future or another dimension. Did Margaret Thatcher share this information with the late Queen?"*******

The documentary also features an interview with retired CID police officer John Hanson, who became a UFO researcher after a colleague encountered a UFO firsthand. Hanson went on to investigate the Rendlesham Forest incident and co-authored two books about it with Colonel Charles Halt, the Deputy Commander of the base at the time. Hanson even sent these books to the Queen and Prince Philip, who responded by saying they were adding them to their personal UFO collection. Hanson remained in correspondence with the royal family until the Queen's passing and was convinced that both she and Prince Philip had a deep and genuine interest in UFOs.

Lee further elaborates:

*******"The Rendlesham UFO story is, without a doubt, the British Roswell. However, I doubt we'll ever see full disclosure from either the UK or US governments, because the truth is far stranger than a simple spacecraft from another planet crashing in the forest. The reality is that it's simply too bizarre for the public to accept. I've also recently spoken with Professor Simon Holland, a NASA advisor and former BBC Science Editor, who told me he has evidence that Meta and Mark Zuckerberg's Breakthrough Listen project has detected an intelligent signal coming from Proxima Centauri. We are not alone—but Zuckerberg refuses to release this information, fearing the impact it could have on society."*******

Lee adds:

*******"Who knows, maybe President Trump will release the files—along with the JFK assassination documents?"*******

The King of UFOs is now streaming on Amazon Prime and Tubi.
