

RDG Mining launches 1-day XRP?BTC mining contract, XRP short-term investment users surge 500%

Sunday 3 August, 2025

How to quickly mine XRP, ETH, and BTC? All you need is a mobile phone.

RDG Mining, the world's leading AI-driven cloud mining platform, has officially launched a new mobile application that redefines the way users participate in cryptocurrency mining. The application provides a seamless experience for users who want to earn passive income through Ripple (XRP), Bitcoin, Dogecoin, Litecoin, and other mainstream digital assets without the need for hardware or technical expertise.

Unlike traditional mining that requires expensive mining machines and continuous maintenance, RDG Mining adopts a mobile-first mining approach, allowing users to mine through cloud infrastructure hosted in global data centers. Users only need a smartphone to register, activate mining contracts and receive daily returns.
