Regents estate agents, part of the Badger Holdings Group, has opened a new branch in Woking, located in the Goldsworth Park District Centre, which will cover Woking town as well as its surrounding villages.

With a mainline station running frequent trains into London Waterloo in just 26 minutes, Woking has long been a popular town for families, young professionals and investors. With three other branches in prominent commuter towns; Chertsey, Sunbury on Thames and Staines upon Thames, Regent's Woking branch is a perfect addition to the group.

Séamus Kavanagh, Group Chief Executive, comments: "As well as its existing attraction, Woking has undergone some major redevelopment over the last 12 months which has further supported house prices. With growing demand from those leaving London to commutable areas, we are very excited to be expanding the Regents brand and to officially announce the opening of our Woking office."

Woking offers a range of properties from luxury modern apartments to character homes. Goldsworth Park remains an extremely popular area with families and young professionals, being just a short drive from the station. Those looking to buy at the upper end of the market are drawn to areas like The Hockering, Hook Heath, Chobham and Horsell which offer a variety of large detached homes.

Regents Woking branch covers Woking and the surrounding villages of Bisley, Brookwood, Chobham, Goldsworth Park, Horsell, Knaphill, Maybury, Old Woking, Pirbright, Sheerwater, St Johns, West End and Windlesham.

To celebrate the launch, Regents Woking are offering to sell any size property for a fixed introductory fee of £1,250 plus VAT (subject to terms and conditions). For more information call Regents Woking & Villages on 01483 756 262.
