

Roth Soundbar Sets Bass Free

Monday 13 July, 2015

Roth AV announces the BAR 2LX. Retailing at £149.00 the soundbar and wireless subwoofer audio system offers a simple route to stunning sound. The ideal way to transform the invariably poor sound of today's TVs, the Roth BAR 2LX also comes armed with aptX-ready Bluetooth technology.

- Wireless subwoofer can be placed up to 30 feet away from main unit
- Bluetooth enables wireless connection of personal devices, such as smartphones and tablets
- Table-mount or wall-mount, wall fixings included
- Gloss finish to sub, cloth front to bar

The cloth grille-fronted soundbar houses four full-range speaker drivers. Factor in the mirror-top finish, wireless subwoofer, plus total power of 120 watts, and what you have is a home sound system, not just a 'TV speaker'.

The Roth BAR 2LX launches in the United Kingdom on 14 August 2015.
