Scunthorpe Company to see in the New Year with new offices and expansion plan

Sunday 29 December, 2019

Scunthorpe based Online Reputation Management specialists DigitalOx Limited will be seeing in the New Year from new, larger, offices within their current home at Normanby Gateway.

The highly rated Digital Marketing Agency, who were recently announced as one of the Top 3 Marketing Agencies in North Lincolnshire for the second year running, have been based at the North Lincolnshire Council owned managed office space at Normanby Gateway for two years now. Due to an influx of Online Reputation Management Clients, and the need to take on more staff to look after those Clients effectively, the busy marketing agency will be moving into their much larger new offices early in the New Year.

Company owner and Scunthorpe native Aaron Young said 'We're really pleased with our successes over the past year, and we can't wait to see what 2020 will bring us. We're excited by the opportunity the new space - and our new staff - will bring us.'

DigitalOx Limited offer a full range of Digital Marketing services to companies within the local and regional area, including managing SEO and PPC campaigns where their expertise is used to make other companies more money. However the company has a unique speciality, it's founding service of Online Reputation Management, and that's where it's largest Clients come to need the help of this Online expert.

Aaron Young explains:

> 'Online Reputation Management is where we will either repair a damaged Online Profile - i.e. what somebody sees when they search their own name or their company name on Google - or protect the name / brand so that no damage or attacks can ever occur. We work with individuals who want to repair their reputation and companies who want to protect their image for the future - after all, in this day and age it's all too easy to be attacked Online, so investing in experts such as us is actually a small price to pay to protect your business' reputation.'

As the Online world continues to expand, and as more and more people research companies before placing orders with them or individuals before offering them a job, a company like DigitalOx Limited occupies a Brexit-proof niche in the economy that will not see them slowing down their expansion and growth anytime soon.
