Secure Reuse Before IT Disposal: SocialBox.Biz Urges Westminster City Businesses and Beyond to Choose Reuse Over Recycling This Winter

Friday 28 November, 2025

London, 28 November 2025 – With Windows 10 reaching end-of-support and thousands of perfectly functional laptops facing premature IT disposal across Westminster and Greater London, SocialBox.Biz today issued an urgent call: securely reuse before you dispose.

Peter Paduh, founder of the award-winning Community Interest Company SocialBox.Biz, emphasises that secure reuse is now faster, greener, and more impactful than traditional recycling. “Most companies in Westminster City already have WEEE recycling contracts,” “We’re simply asking them to call us first to check what can be reused first.”

Why Secure Reuse Beats Recycling and IT disposal in 2025

- Higher environmental savings: Reusing one laptop saves more CO? than recycling it.
- 100 % data security: With certificates provided
- Zero disruption: Works alongside existing recycling contracts; SocialBox.Biz handles collection, wiping, and reporting.
- Measurable social impact: impact story and reports available.

Special Focus: Westminster City and Surrounding Areas

SocialBox.Biz already runs regular collections across Westminster, the City of London, Camden, Kensington & Chelsea, and the West End. Current charity partners in the borough include:

- Age UK Westminster
- The Passage (homelessness support)
- C4WS Homeless Project

Interviews with recent Westminster and central London recipients

How SocialBox.Biz’s customized impact plans empower businesses.

Even companies with no spare hardware can support the campaign through SocialBox.Biz’s 2025 Impact Plans, which fund upgrades for the most in-need cases.
