Senior Friends is Live

Wednesday 30 December, 2015

With an ageing population in the UK there is a significant increase in loneliness and social isolation this impacts on both physical and mental health well-being.

Senior Friends has created an on-line Friendship Community based presence, a place where you may find new friends and you can share your thoughts and aspirations, join in various discussions either via the on-line chat interface or the soon to be launched forums.

We target the over 50's and **offer Free Lifetime Membership**, we do not have any form of advertising on the site and **do not plan to monetize in any form**.

Whilst we are not a Dating Site we have taken advice from the On-line Dating Association with regards to security and profile validation, additionally we work with Scamalytics – A premier UK based service who use the latest fraud detection techniques to ensure our members have a safe on-line experience.

Senior Friends is operated and maintained by Suheyla Hussein, Chartered Psychologist and John Berman, IT Project Manager – we cover the various hosting and development charges. We do this as we see Loneliness as a huge social issue and rather than just hearing about this we decided to do something.
