

?Simply Supplements launches French and Spanish Websites

Monday 21 July, 2014

Guernsey --- Simply Supplements, a supplier of vitamins and nutritional supplements, has today announced plans to expand into France and Spain with the launch of two new websites which offer a quality-driven alternative for health conscious French and Spanish consumers.

"We are proud that 2014 not only marks our 10th year in business, but now also boasts a significant opportunity to connect with the growing French and Spanish health supplements market, thereby taking our business to greater heights and further establishing our presence in the Supplements market," says Mr Bryant, Head of Commercial Development.

The site will initially offer a range of 30 products from traditional vitamins and minerals such as Vitamin C to more specialised products like Glucosamine Sulphate. Further products will be rolled out in the coming months.

Whilst Simply Supplements is a UK based company, the site will be comprehensively maintained by a dedicated European team. Any queries, concerns, or feedback will be responded to quickly and efficiently by advisors that are fluent in French and Spanish.

High quality at reasonable prices

As with the Simply Supplements Guernsey site, French and Spanish customers can expect excellent value for money with a price match guarantee and free 3-7 day delivery as standard with the option to track their order. Quality is central to the Simply Supplements philosophy, therefore only ingredients of the highest standard are used in the manufacture of supplements and all extracts are standardised to guarantee their quality and potency.

Making health simpler

As a part of Simply Supplements ongoing aim to make a healthy lifestyle as easy and accessible as possible, the website will also host a health and wellness blog. The blog will feature key lifestyle advice, expert knowledge and tips for achieving customers' health goals in a relatable and easy to understand manner.
