Smith's Mason Jars Launches Innovative Tea Infuser

Smith's Mason Jars just launched their all new Tea Infuser today on Amazon and on their website, smithsmasonjars.com. Its toughened boran glass gives a sleek look that can hold up to 330mL of your favourite beverage. The new product comes in four vibrant colours, blue, green, yellow and brown. The tea infuser is inspired by and works for environment since it's reusable and sustainable.

The revolutionary base filtration makes constant brewing possible for up to 5 times refill without the need for restocking fruits, and it keeps drinks warm for more than 2 hours. "After a lot of market research, we found that moving the infuser to the bottom gives a richer tea experience, whether it's ginger, lemon, and turmeric. We've also added a nice silicon holder and carry handle that's perfect for on-the-go people who go to the gym, office, and errands. An all-in-one tea infuser, it's the only travel-friendly beverage flask you'll ever need." says Luke Smith, Managing Director of Smith's Mason Jars. The revolutionary base filter has its own bottom opening that allows for easy cleaning inside out.

The Smiths Mason Jars Tea Infuser are on sale now at 30% off until 10 May, 2019.
