SocialBox.Biz Reuse Before Recycle For Old Tech for World Environment Day and Every Day

Friday 7 June, 2024

As the world faces increasing environmental challenges, SocialBox.Biz, a social enterprise focused on digital inclusion and sustainability, is calling on companies to take action and reduce their carbon footprint. In light of the upcoming London Tech Week and Refugee Week, SocialBox.Biz is urging businesses to consider reusing their old tech instead of recycling it, in order to reduce scope 3 emissions and increase their social impact.

By partnering with SocialBox.Biz, companies can not only reduce their carbon footprint but also contribute to a more sustainable and inclusive society.

In addition to reducing scope 3 emissions, reusing old tech can also have a significant social impact. SocialBox.Biz is focusing on reusing tech before recycling and works with various charities and organizations to provide suitable upgraded laptops and mac-books to vulnerable and disadvantaged individuals, helping them gain access to education, employment, and other opportunities. By choosing to reuse instead of recycle, companies can make a tangible difference in the lives of those in need.

As we celebrate World Environment Day this week, let us all take a moment to reflect on our impact on the environment and how we can make a positive change. SocialBox.Biz is committed to promoting sustainability and digital inclusion, and urges businesses to join them in their mission. Together, we can create a greener, more equitable world for future generations.

For more information on how your company can partner with SocialBox.Biz, please visit their website at www.socialbox.biz. Let's make this a catalyst for lasting change.
