London: The SonicScrubber electric cleaning tool has become a firm favourite with house proud mums across the nation, including famous cleaning influencers Mrs Hinch and Stacey Solomon.

Now the company has launched two new versions of the tool that could see more dads cleaning up their act too.

With Father’s Day looming on the horizon, these new SonicScrubbers make great gifts for dads who love sport, bikes, boats or cars…which lets face it is probably most of them!

New SonicScrubber Vehicle Cleaning Tool

The new SonicScrubber Vehicle System is perfect for cleaning dirt and grime from hard to reach places on cars, bikes and boats. From the alloy wheel spokes to bike gears, the tool set comes with a range of brush heads designed for achieving a showroom finish at home.

It’s the ideal tool for removing crud around car windows, muck around mirrors, grime around the gearstick or dirt from dad’s bike.

All parents of young children know that kids' car seats are magnets for food spills, drink spillages and general yuckment. Thankfully the SonicScrubber Vehicle System is dad’s perfect little assistant for cleaning crumbs from the crevices, around the safety straps and all those hard to reach areas around children’s car seats and booster cushions.

New SonicScrubber Footwear Cleaning Tool

Meanwhile sporty dads can show the competition a clean pair of heels thanks to the new SonicScrubber Footwear System. It’s the perfect present for dads who love running, team sports, outdoor pursuits or muddy walks.

The oscillating brush heads, designed specifically for cleaning footwear, will keep dad’s trainers, shoes and boots match fit: scrubbing treads, reviving tired uppers and getting to that annoying grime that gathers those grooves around the stitching.

An Amazon Favourite

SonicScrubber is an Amazon bestseller with over 22,000 five-star reviews on Amazon testifying how powerful, effective and easy to use it is.

The new SonicScrubber range can clean continuously for three hours, from fully charged batteries, powering their interchangeable brush heads through a pattern of 10,000 oscillations a minute. The special cleaning action is designed specifically to loosen dirt and make cleaning a lot less work than scrubbing by hand.

All SonicScrubber tools feature non-slip handles and are certified water resistant. When the cleaning's done, the removable brush-heads can be popped in the dishwasher and replacements and accessories are available at SonicScrubber.com

Now, with the new SonicScrubber Vehicle and Footwear Systems, your dad can scrub-up nicely this Father's Day.
