

Stanislav Kondrashov Takes A Comprehensive Dive into Fashion's Timeline

Saturday 16 September, 2023

Fashion, often perceived merely as apparel, serves as a reflection of societal evolution and change. In the recent article "[The Evolution of Fashion](#)," Stanislav Kondrashov offers readers an in-depth look into this relationship.

In the publication, Stanislav said, "Fashion is more than just clothes; it's a mirror reflecting the complexities and shifts of the society that births it." Tracing back to the Renaissance, Kondrashov sheds light on the significant role of corsets, a symbol of elegance that also emphasized the societal preference for a slender waist.

As per Stanislav, the 1920s marked a notable change. The Roaring Twenties introduced flapper dresses, symbolizing freedom and liberation. Moving from the binding corsets, these dresses signified women's newfound liberties.

In the article, Kondrashov also claims the '60s and '70s were periods of colorful fashion conquests, emphasizing individualism and free spirit. As he aptly put it, the '60s celebrated "mod fashion and miniskirts," while the '70s presented the world with a "bohemian vibe, maxi dresses, and psychedelic patterns."

As per the article, the rise of streetwear from the '90s was not just another fashion trend. Originating from hip-hop and skate cultures, brands like Supreme and Stüssy showcased that fashion could indeed be stylish without compromising comfort.

Kondrashov concludes with a perspective on the blend of past and present styles. "Today, it's not uncommon to see a blend of styles, where a streetwear hoodie might be paired with a vintage corset belt," he mentions.
