Stark Future SL Achieves the First Month of EBITDA Profitability and Records All-Time High Revenue

Barcelona, Spain – July 14, 2024 – Stark Future SL, a pioneering force in the electric vehicle (EV) industry, is proud to announce a landmark achievement in June 2024, marking its first month of EBITDA profitability within just four years of its inception. The company also celebrated an all-time high revenue of 10.4 million EUR, with an EBITDA of 210,000 EUR, underscoring its rapid ascent and operational efficiency.

This significant milestone sets Stark Future apart in the competitive landscape of EV companies, highlighting its exceptional growth trajectory. Unlike many industry peers, Stark Future has reached this level of profitability much faster, underscoring its unique position as one of the fastest-growing startups in Spanish history and among the fastest globally.

Anton Wass, CEO of Stark Future SL, commented on this achievement:

"Reaching EBITDA profitability ahead of our forecast is a monumental accomplishment for Stark Future. It showcases our team's dedication, strategic vision, and the strong market demand for our innovative products. This milestone not only validates our business model as sustainable but also propels us further on our mission to revolutionize the motorcycle industry."

CFO Thomas Martin added:

"As we celebrate our record-breaking sales exceeding 10 million EUR this month and our first positive EBITDA, we are thrilled to demonstrate a clear path towards a profitable future. This milestone is a testament to our robust growth and operational excellence. We are confident that every investor can be proud to be a part of our journey, as we continue to pave the way for even greater achievements and opportunities ahead."

Stark Future's achievement of reaching EBITDA profitability earlier than projected is attributed to lower-than-anticipated costs and higher revenue. This success story reflects the company's strategic focus on efficiency and growth, positioning it as a leading player in the EV market and a trailblazer in the startup ecosystem.

As Stark Future continues to innovate and expand, it remains committed to delivering cutting-edge electric motorcycles that meet the evolving needs of consumers worldwide. With a clear path to sustained profitability, Stark Future is poised for even greater success in the years to come

Company Milestones

2020: Company was Founded

Stark Future was established to revolutionize the motorcycle industry. The founders brought their extensive experience and passion for innovation to create a company dedicated to sustainability and high-performance electric motorcycles..
