Studica.com Partners with Macmillan New Ventures to Bring i>Clicker to UK Education Market

Tuesday 18 November, 2014

Studica Ltd. and Macmillan New Ventures have partnered to bring new, innovative technology to schools throughout the United Kingdom, Nordic countries and Western Europe. Students and educators can look forward to integrating the best learning tools into their classrooms from brands such as: i>clicker, Hayden-McNeil, Late Nite Labs, Nature Education and Sapling Learning.

"Classrooms around the world are evolving with advances in technology. With Studica's long history of expertise in serving education and the cutting-edge, academic products offered by these MNV companies, you can evolve with them. This partnership ensures educational institutions have access to the best technology to prepare their students for success," stated Frank Nanfara, Studica's Managing Director.

i>clicker is the most reliable and flexible classroom response system, specifically designed to boost student interaction and engagement. With over 3 million units sold, it is known for its reliability, ease of use and its focus on pedagogy.

Late Nite Labs offers online interactive science labs that recreate a traditional lab environment, while also allowing your students to explore in a safe, interactive environment – anytime, anywhere.

Nature Education's *Principles of Biology* is designed for university-level, introductory biology courses. This born digital textbook delivers multi-model pedagogy, comprehensive course content, *Nature* journal articles, communication and career resources and so much more.

Hayden-McNeil is a tried and tested pillar of science education. This company is passionate about science and its role within the education community. The benefits of using Hayden-McNeil laboratory notebooks in the classroom strongly align with a successful science curriculum.

Sapling Learning's instructional online homework system drives student success and saves educators' time. Created by educators and maintained by them, this unique homework solution offers one-on-one support from educators and offers many time saving tools. It is proven, effective and easy-to-use.
