Wednesday 11 August, 2021

The [Goddard Gallery](#), a world-leading boutique wall art photography brand, is expanding its offering with the launch of the Goddard Coffees Label that includes a speciality roast produced in Scotland and California.

The US and UK coffee label compliments its range of Goddard coffee table books, magazines, and photographic wall art images. The Goddard Coffees US label has coffee beans from key coffee producing countries including Kenya, Ethiopia, Columbia, Bali and Brazil which are then expertly roasted in California. The selection of coffees are created with hotels, cruise ships, coffee shops and restaurants in mind to help managers to curate the very best coffee experience for guests.
