The Chill Out Tent - Around The World

Thursday 18 June, 2020

The Chill Out Tent, a collective of Balearic, ambient and electronic DJs and artists, is putting together an ambitious streaming project around the summer solstice.

The plan is to follow the sun, travelling round the world in 24 one hour segments of music and visuals.

The stream will begin at sunset UTC on Saturday 20 June and stretch the longest day until finally returning to it's starting point 24 hours later on the evening of Sunday 21 June for a final celebratory hour of party music from Ibiza for a genuine - what day is it? - moment.

The stream will feature contributions from visual artists DJs and electronic musicians from around the world, and as many sunsets as possible. The idea is to take a virtual global journey when actual physical travel is difficult to highlight the uniting cultural force of music and art at a time when global human collaboration to contain the virus and deal with the climate emergency is, simply, essential.

This is an exploration of our planet, a meditation on what it is to be human, and in some way a prayer for global peace and cooperation.

THE CHILL OUT TENT - AROUND THE WORLD
