The CKB Ltd ® Chill Out Wedge is Back in Stock from 16th May 2016

Thursday 12 May, 2016

CKB Ltd ® offer a truly versatile, inflatable lounger termed the Chill Out Wedge. It can be used to relax both indoors and outdoors and, with its full sized 120cm long mat, you really can stretch your legs out and chill.

The CKB Ltd ® Chill Out Wedge offers comfort with an anti-slip PVC Flock exterior for a soft, velvet like feel. It is not only super light but it is also very compact when folded down. Furthermore, it comes complete with its own reusable plastic wallet which is a similar size to a car manual folder so you can transport it very easily when going out.

There are so many places you could make use of your CKB Ltd ® Chill Out Wedge including music festivals, camping, picnics, barbeques and at the beach. With its waterproof PVC base, you do not need to worry if the ground is wet and this versatile product can simply be wiped clean with a damp cloth.

Offered in red, purple and navy blue colours, the cost effective CKB Ltd ® Chill Out Wedge is also, however, very useful around the home. You could use it to play computer games, read, listen to music, watch television, sunbathe in your garden or just have some in a cupboard for when guests come around and you need additional seating. Another great place to use it is in your child's bedroom so you have somewhere to sit comfortably when playing with them especially if they are very young. There is nothing worse than an adult sitting on children's furniture or sitting on the floor for long periods. With the Chill Out Wedge back support is included as the triangular design will support your back at the perfect angle meaning play time does not have to end when your back ceases up!

Inflating is easy and only takes two minutes by mouth or even less time when using a suitable low pressure pump. Simply pull the stopper cap out of the valve, squeeze the mouth piece and blow to inflate the wedge/ back part, taking care not to over inflate and to replace the cap once inflated. You can choose how much to inflate the wedge as putting less air in means you could lie a bit flatter.

Colin Betteridge, Director of CKB Ltd ® said:

"We are excited to offer a transportable seating solution primarily for use when out and about. This fantastic product is so versatile that its uses are fairly endless. The CKB Ltd ® Chill Out Wedge is an essential accessory especially for a summer's day and it is back in stock from 16th May 2016 so grab yours and chill out before they sell out again!

END
