

?The Engineering and Manufacturing sector in Greater Lincolnshire

Monday 12 March, 2018

Greater Lincolnshire boasts some of the UK's most innovative and exciting Engineering and Manufacturing employers including Siemens, NMB Minebea, Tong Engineering and British Steel. So why have they decided to 'set up shop' within this region?

Could it be because of the:

- 48,000 workers within the industry?
- The first purpose built school of Engineering in the UK for 25 years?
- Maybe because Greater Lincolnshire is the UK's second largest county?
- Or the two gold standard Universities in the region?
- The first rubber tyred road vehicle was built in Greater Lincolnshire?
- The first diesel running engine in the UK was built here?
- The first tank was invented in the region?

"We are proud to be associated with Lincolnshire and it's great engineering and manufacturing heritage. We support the global aerospace industry and Lincolnshire has always succeeded in attracting the right person for the job"- Alan Morton, Sales Manager, NMB Minebea.

Greater Lincolnshire has a history of innovation within the Engineering and Manufacturing industry. Did you know that?

The region has 2350 employers within this sector who continue to invent and manufacture innovative products and build amazing structures. And these passionate organisations are looking for like-minded, young talent to join their workforce to continue Greater Lincolnshire's engineering and manufacturing heritage.

The World of Work is challenging the perceptions of young people by showcasing all job roles found within sectors, rather than focusing on stereotypical careers. By sharing real stories from people within the regions priority sectors, we can inspire young people and help them shape their own career journey.

And there are so many exciting industries and employers in the Greater Lincolnshire region to showcase; it's hard to know where to start looking when it comes to work. So, by accessing www.theworldofwork.co.uk young talent can start to learn more about opportunities they may never have thought of.

The sectors covered by the web site, showing stats, information and case studies include:

- MANUFACTURING & ENGINEERING
- AGRI-FOOD
- HEALTH & CARE
- LOW CARBON
- VISITOR ECONOMY
