

# The Great Brand Exchange Rebrands as IND!E Pop Up and Introduces IND!E Collection: A New Chapter for Independent Brands

Wednesday 3 July, 2024

The Great Brand Exchange (GBX) is excited to announce its rebrand as Indie Pop Up, marking a significant evolution in our mission to support and elevate SME challenger brands. Alongside this rebrand, we are proud to introduce Indie Collection, a new ecommerce site set to launch later this year, showcasing the best indie brands from around the globe.

## Vision Statement:

To be the global leader in creating opportunities for SME brands in retail, enabling brand owners to live their dreams and build businesses that align with their passions.

## Mission Statement:

At IND!E, our mission is to empower and elevate emerging lifestyle brands by providing a curated platform that bridges the gap between SME brands, retailers, and consumers worldwide. With a network of over 14,500 brands, we are dedicated to fostering innovation, authenticity, and sustainability in retail, ensuring that every brand we showcase not only meets our high standards but also tells a compelling story that resonates with modern consumers. Through strategic partnerships and a relentless commitment to excellence, we strive to create a thriving ecosystem where small businesses can flourish and reach their full potential, which is particularly important today as the retail landscape rapidly evolves with the advent of digital transformation, shifting consumer preferences, and heightened awareness around environmental and social responsibility. This dynamic environment necessitates that businesses remain agile, innovative, and deeply connected with their audience.

## Our Vision and Mission:

IND!E Pop Up continues to build on GBX's legacy, focusing on creating dynamic in-store pop-up experiences with major retailers like John Lewis and Morleys Stores. We are also thrilled to announce our upcoming collaborations with Dobbies Garden Centres, further expanding our reach and impact.

IND!E Collection: Launching later this year, our new ecommerce site will offer a curated selection of top independent brands from around the world, providing a broader platform for indie creators to reach enthusiastic customers.
