Six new food and drink entrepreneurs have won a coveted place on a ground breaking business mentoring programme, run by the experts at The Grocery Accelerator. Hundreds of start-ups applied for the chance to secure a £60k investment, and to turn their emerging businesses into industry success stories – with the winners now unveiled.

The selection process has been rigorous, with each business being put through their paces. They pitched before investors, and then other producers, in a thrilling Dragons' Den-style battle at Speciality & Fine Food Fair 2015. The chosen six will now be part of the unique six month accelerator scheme, which aims to grow their brand within the food and drink sector.

We believe each of our winners has the potential to become a serious contender in the food and drink industry – and they all bring something different to market.
