Editor's Notes

In *No Time To Die*, Bond has left active service and is enjoying a tranquil life in Jamaica. His peace is short-lived when his old friend Felix Leiter from the CIA turns up asking for help. The mission to rescue a kidnapped scientist turns out to be far more treacherous than expected, leading Bond onto the trail of a mysterious villain armed with dangerous new technology. The film will be released globally on 30th September in the UK through Universal Pictures International and in the US on 8th October, from MGM via their United Artists Releasing banner.
