

The Portfolio Platform- The World's Top Traders Align With TPP.

Friday 18 September, 2020

The Portfolio Platform have announced the acquisition of 5 of the world's highest performing traders for their platform.

TPP subscribers now have access to Yoko Trading, Lorenzo Trading House, Rafiq Markets, London Trader Inc, The Canary Wharf Trading Arcade and the trading strategies they've designed via the innovative TPP software.

With TPP aiming to make investing simple and profitable for investors, this is another large stride in the right direction.

The track records provided to TPP before hosting these traders averaged 18% over the last 2 years, in a market climate that hasn't been an easy one to predict.

Yoko Trading has averaged 12% and trades US equities.

Lorenzo TH has averaged over 20% and trades the US stock markets.

Rafiq Markets has averaged 25% and trades equities worldwide.

The Canary Wharf Trading Arcade, and London Trader Inc, both trade multi market portfolios and have averaged well over 10% per annum as well.

All very solid performers, and in fact- these five traders alone could provide enough diversification for any investor's portfolio. However, by combining these skillful teams with the individuals, teams and strategies that are already being hosted at TPP- and it's safe to say- it's becoming an investors paradise.
