

The World's Most Qualified Fortinet Partner

Wednesday 20 July, 2022

With hybrid workforces, highly distributed network infrastructures, and rapid digital innovation, organizations are discovering that securing all of their environments is becoming increasingly complex, necessitating the use of appropriate technology and trusted advisors.

Fortinet is a global leader in broad, integrated, and automated cybersecurity solutions, and as a Fortinet expert level partner, we leverage the best security solutions in the cyber security industry to drive customer success.

COMMITTED TO DEVELOPING OUR TEAM'S SKILLS AND CAPABILITIES

Because of our ongoing commitment to training and service quality, we are the only Fortinet partner recognized as experts across three business models and four key specialisations.

With 81 individual Fortinet certifications across all eight NSE levels, we are the World's most qualified Fortinet partner.

EXPERTS ACROSS 3 KEY BUSINESS AREAS

As proven Fortinet Solution experts, Infosec Partners have consistently demonstrated that we can be trusted to skillfully deliver the full range of Fortinet solutions, including across complex environments.

Not only is our team recognised as being highly trained, but also for continually providing the highest levels of customer support across the following 3 key business areas:

1. Cloud Solutions
2. Integrated Solutions
3. Managed Security Services Provider for the provision of the monitoring and management of the full range of Fortinet security solutions

EXPERTS ACROSS 4 KEY SPECIALISATIONS

Infosec Partners has also been recognised as a partner of distinction, with specific expertise within the following 4 key specialisations:

1. Adaptive Cloud Security
2. Data Centre
3. Operational Technology
4. Zero Trust Access

To achieve a clean sweep of expert recognition from Fortinet, in the coming months we will be focusing on achieving expert level status for the remaining 3 Fortinet security specialisms: Security Operations, SD-Wan and LAN Edge/SD Branch.
