Tinrocket Unveils Photo Tape

Friday 21 June, 2024

A Fresh Take on Photo Collaging for iOS Users

Tinrocket proudly introduces Photo Tape, a simple photo app designed to make creating photo collages effortless. In a world cluttered with complex digital tools, they've chosen to take a step back, focusing instead on what matters most—enabling creativity through simplicity.

Effortless Storytelling with a Snap

Photo Tape reimagines photo collaging by merging minimalistic design with powerful functionality. It's a rethink of how we interact with our memories and ideas. With its user-focused features and tactile design, Photo Tape embodies the creativity and innovation of the indie game scene. Tinrocket moved beyond traditional fixed grids, opening up a canvas where images can be effortlessly woven together, reflecting the natural progression of our thoughts and stories.

Photo Tape became more accessible with the most recent update, which included full support in both English and German. The French, Dutch, and Spanish will soon follow, expanding Photo Tape's reach and enhancing its appeal to a global audience.

John Balestrieri, the mind behind Tinrocket, sees Photo Tape as an important milestone in the company's mission to enhance creativity through technology. Balestrieri shares, "*Our aim was clear. Create a space where ideas flow freely, untouched by unnecessary complexity. With Photo Tape, we're excited to offer a platform where creativity can flourish.*" This approach has quickly earned the app a favored spot in the top ten German App Store's Photo category.

As digital simplicity becomes ever more relevant, Photo Tape is at the forefront, not just as a tool but as a portal to a flexible and intuitive digital storytelling space.

About Tinrocket

Tinrocket, founded in Brooklyn, New York in 2006 by John Balestrieri, is dedicated to making original, creative software for mobile and desktop. Tinrocket has consistently delivered user-friendly apps that go beyond mere image manipulation. Their critically acclaimed apps include Waterlogue (App Store Best of 2014), Olli (App Store Best of 2017), and This by Tinrocket (App Store Best of 2016).
