

Tisalabs Announces Partnership with ControlCase to Empower Clients Through Enhanced IT Certification and Compliance Services

Wednesday 12 February, 2025

Cork, 12 Feb 2025

Tisalabs announces a partnership with ControlCase to enhance IT security certifications and bolster client privacy.

Tisalabs, a trusted Managed Service Provider (MSP) specializing in IT solutions and services, is excited to announce a partnership with ControlCase, the global leader in certification, cybersecurity, and continuous compliance services. The partnership will combine ControlCase's comprehensive compliance and cybersecurity expertise with Tisalabs' robust managed services framework and revolutionize how Tisalabs' clients attain IT certification and compliance. The two companies will provide tailored solutions to meet regulatory demands while unlocking new opportunities for market expansion.

As a partnership component, Tisalabs will integrate ControlCase's industry-leading certification and compliance offerings into its service portfolio to provide accreditation for standards like PCI DSS, ISO, SOC, CMMC, GDPR, HIPAA, FedRAMP, DORA, NIS2, and many more. This integration will allow Tisalabs' clients to manage the increasing complexity of regulatory requirements, enhance their security posture, and attain competitive differentiation in a marketplace increasingly driven by compliance.

ControlCase specializes in providing IT compliance audits and services underpinned by cutting-edge technology. The company's meticulously designed audit questionnaires and comprehensive mappings of requirements significantly enhances operational efficiency. Through ControlCase's proprietary Compliance Hub™ platform, clients are equipped to demonstrate compliance with multiple standards seamlessly. This platform provides real-time responses to inquiries and includes an evidence review feature that uses advanced large language models (LLMs) for document pre-checking.

"At Tisalabs, we are dedicated to consistently delivering value-driven IT solutions," said Mo Hassine, Tisalabs CEO. "Aligning with ControlCase allows us to expand our capabilities and offer unparalleled compliance and cybersecurity services, ensuring our clients meet industry standards and thrive in a competitive environment."

"Our partnership with Tisalabs exemplifies ControlCase's commitment to enabling MSPs to stay ahead in an increasingly complex compliance landscape," said Joshua Hoffman, Chief Revenue Officer of ControlCase. "Through collaboration and innovation, we are helping MSPs transform compliance from a necessity into a competitive advantage."

The partnership will also leverage ControlCase's upcoming "Better Together" campaign, providing a centralized library and knowledge center for Tisalabs to adapt and deploy, further enhancing the organization's ability to serve clients efficiently and effectively. This alliance marks a significant milestone in transforming compliance into a global seamless, cost-effective, and growth-oriented business process.
