

Top Level Security Accreditation Achieved by Sims Recycling Solutions

Monday 20 July, 2015

Sims Recycling Solutions accredited to CAS-S (CESG Assured Service Sanitisation) certification for data destruction within HM Government Departments.

Dumfries, United Kingdom (20 July 2015) – Sims Recycling Solutions are delighted to be amongst the first organizations to be awarded the CAS-S (CESG Assured Service Sanitisation) Industry Certification Standard. The newly issued standard has been updated to reflect the latest Government Classification Scheme for secure sanitization of electronic data. This certification confirms Sims Recycling Solutions' ability to offer the highest levels of secure data sanitisation to our clients.

CAS assessment is a certification scheme for commercial sanitization services to demonstrate compliance with and ability to deliver services in accordance with the guidelines set out by HM Government.

This certification confirms Sims Recycling Solutions' ability to provide mobile and fixed-location data sanitization services, which include shredding and degaussing, in line with HMG classifications.

Sims Recycling Solutions' Director of Europe and India, Anand Narasimhan, comments, "Our clients, whether public or private sector organizations, can rest assured that their equipment and valuable data will be handled to the highest possible standards." Narasimhan added that, "CAS-S accreditation demonstrates our commitment to ongoing excellence in delivering leading IT asset disposition (ITAD) services".

Undertaking CAS-S Accreditation is part of a planned series of innovations that Sims Recycling Solutions is introducing to the market. Other recent innovations included the launch of the www.mydigitaltech.com eCommerce site designed to improve routes to market and ensure best possible returns for our clients while delivering a great eCommerce offering for consumers. Sims Recycling Solutions will continue to bring best-in-class services and continual improvements to the marketplace.
