TopUp Consultants announce strategic APAC partnership with Loci Solutions to satisfy growing global demand for eConnect

Wednesday 28 September, 2016

- EMEA's largest independent real estate software consultancy announce partner for their ground-breaking digital correspondence platform
- eConnect has proven to reduce client's dependence on traditional postal services by digitising and automating the processes involved.

London, England, 28 September 2016

TopUp Consultants, EMEA's largest independent real estate software consultancy, today announced that Loci Solutions has become an eConnect partner for the APAC region.

eConnect was launched in 2015 to cut the dependence on traditional postal services by digitising and automating the processes involved. The application has proven to significantly reduce the cost of post and associated labour hours, while key tracking features provide users with greater insight *and* ensure critical documents reach their intended recipients.

Customers to immediately report substantial efficiency savings include some of the largest real estate companies in the world.

By forming the partnership, TopUp Consultants aim to satisfy the growing global demand for eConnect, while maintaining the high quality of service for which the company has become known.

Kyri Striftombolas, Managing Director of TopUp Consultants, said:

"We're delighted to announce the partnership with Loci Solutions. We've experienced rapid growth because of our reputation, so we would only work with a company that we know could deliver to the standards we set. The partnership with Loci Solutions will allow us to introduce eConnect to the APAC real estate market."

Nikki Steadman, CEO of Loci Solutions, said:

"Loci are excited to be working with TopUp and to be in a position to bring the eConnect solution to the AsiaPacific market. Our clients have been looking for a tool that gives them greater control and transparency in communication and delivery of reporting to their stakeholders. eConnect is a natural fit! The depth of integration and relationships that eConnect/TopUp have with key property ERP providers, including MRI, is also a huge plus."
