About Tots to Travel

Tots to Travel specialise in finding and developing holiday properties for families who want to holiday with babies and small children. The result widens the world for parents with children under 5 so that they can recharge, reconnect and savour their time together.

Tots to Travel promise:

- 30 point child safety check during an on the ground inspection
- All private pools are barriered to prevent access by children
- Baby and toddler kit of 20 essential items are guaranteed at no extra cost

Founded by mum of three Wendy Shand, who noted a gap in the market for genuinely child-friendly holidays after her toddler fell into an unprotected swimming pool during a family holiday, Tots to Travel is the only family holiday brand to guarantee extra child-safe and parent-friendly measures in place for

every destination offered on their site.

From ensuring every private pool has a physical safety barrier, to personally hand selecting, inspecting and perfecting each destination for parents with young children, every location is rigorously analysed for child friendliness and any potential risks that cannot be mitigated are clearly highlighted to parents. Every inspection also includes the use of a detailed ’30 point safety checklist’ featuring the measurement of balcony railing gaps, window heights and more.

Each destination is also equipped with the 'Tots Essential Kit’ containing 20 key items of baby and toddler gear, such as sterilisers, monitors and blackout blinds, so parents won’t have to pack them. Where possible, gardens are enclosed and layouts are specifically selected for their suitability for parents with young children. When it comes to resorts, Tots have also visited and hand-picked only the most luxurious and most genuinely child suitable resort room options, so that families can be confident in knowing they’re staying in the most appropriate accommodation for their needs.
