Jaguar Land Rover has chosen Trackstar as its European Stolen Vehicle Tracking partner for the Jaguar Land Rover *InControl* Telematics Programme. Jaguar Land Rover's *InControl Protect and Secure products* use cutting edge, in-vehicle mobile technology to safely and securely connect the customer, their vehicle and the *InControl* services.

Using advanced tracking technologies, *InControl Secure* provides peace of mind to the vehicle owner, knowing that in the event of a theft the incident is treated with urgency and professionalism. The service is supported by Trackstar across Europe where established cross-border processes facilitate an efficient police response. InControl Secure is a Category 6 stolen vehicle tracking system accredited by Thatcham Motor Insurance Repair Research Centre.

InControl Secure is now on sale on selected Jaguar and Land Rover products in UK, Germany, France, Italy, Spain, Austria, Portugal, Belgium, Netherlands and Luxembourg.

Following a thorough evaluation Jaguar Land Rover chose Trackstar due to its international Eurowatch stolen vehicle tracking network covering multiple markets, expertise and innovation in dealing with major vehicle manufacturer partners, robust processes, and adaptability together with the highest levels of service.

Trackstar manages its own 24 hour control centre in the UK, where a team of stolen vehicle recovery experts are able to liaise directly with the police and provide the highest levels of customer support in the event of a vehicle theft. In addition Trackstar's International network Eurowatch provides access to police in more than 50 countries.

Craig Blount, Managing Director of Trackstar and Traffic, comments: "We are delighted to be chosen as the Jaguar Land Rover stolen vehicle tracking partner for Europe in this ground-breaking programme and we are proud to have been selected based on our expertise, high levels of service and our International network."

About Trackstar

Already proven and trusted by prestige motor manufacturers such as Jaguar Land Rover and BMW Trackstar provide a Thatcham approved Stolen Vehicle solution which is monitored 24 hours a day in their Control Centre. Stolen vehicles automatically alert the Trackstar emergency desk operators who then monitor them remotely and inform the police of their whereabouts for fast and efficient recovery.

Through its Eurowatch network Trackstar is able to deliver a stolen vehicle tracking response in over 50 countries.

Trackstar is headquartered at Teletrac (Trafficmaster Ltd) in Cranfield, Bedfordshire.
