Travel Handsfree: The easy way to transport your sport equipment and luggage on holiday

Tuesday 26 November, 2019

One of the most frustrating and stressful parts of a trip away can be transporting, handling and protecting your luggage and sport equipment at the airport – before you've even headed off on your holiday. That's why AiroLuggage.com has created a unique Door-2-Door luggage service to remove that stress. Read on to find out more about how this can help to make your next holiday get off to a calmer and more enjoyable start.

We all look forward to a holiday, whether it be to relax in the sun or something a bit more active, such as sightseeing, playing golf, skiing or even mountaineering.

But something that can ruin a holiday or make it stressful for all of us, is handling our luggage and equipment at the airport. There's the chore of looking for trolleys, waiting at check-in queues and delays at luggage carousels – the list goes on. Most people are often exhausted, exasperated and defeated by this.

But added to that is the worry of something happening to a vital piece of equipment you can't holiday without. Shockingly, all the major airlines miss-handled approximately 22.7 million bags in 2017 according to SITA (an air transport information technology company), and 1 passenger in 5 was asked to pay excess baggage fees according to travel insurer Columbus Direct.

And *all*
travellers, are susceptible to excess baggage fees and lost or damaged luggage and sport equipment.

Making handling your luggage at airports easier

It was for these very reasons that we at AiroLuggage.com have created a reliable luggage shipping service. We will collect your luggage and any sports equipment from your home and deliver it directly to your hotel or other holiday destination. We will also return it to your home at the end of your holiday.

Just imagine those heavy suitcases and sport equipment lying in your hallway and then being uplifted by one of our helpful couriers. Next time you see them they will be in your hotel room or apartment.

We know that this service will encourage more people to travel, knowing that, there is one less thing to worry about.

How to use the AiroLuggage service

AiroLuggage is not only super convenient, but our site is also easy to use. You can get a quote on our website in super-quick time. Our prices are highly competitive, and we even allow you to compare them against all the major airlines' prices for luggage handling.

Once you're happy with the price quoted, simply schedule your collections and deliveries on the days and timeslots of your choice. We will then send you the plastic security wallets and email you the shipping labels. Simply attach these to your luggage ready for collection, then sit back and relax. As you would expect, we offer a personalised service for all our customers.

Travel should be accessible and enjoyable for everyone. We at AiroLuggage feel that our affordable and practical Door-2-Door service greatly reduces stress when travelling, allowing a greater degree of independence for travellers

We at AiroLuggage support the aim of a world where people can travel handsfree to the airport knowing their luggage is waiting for them at their destination

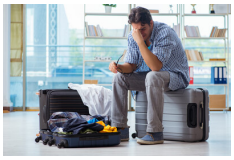

Journey

As a company founded by frequent travellers, we understand the inconvenience of dragging luggage around the airport. Our dedicated team has built a customer orientated business offering you direct technical support, personalised customer service, and live luggage tracking, so you have peace of mind knowing your luggage is in safe hands.
