

Truly organic skin balm that delivers miracle results!

Tuesday 16 September, 2014

After much research and formulation, Back to Nature Ltd is thrilled to announce the release of Miracle Balm - an all-in-one hypoallergenic organic and 100% natural skin treatment balm. It provides powerful anti-ageing, healing, anti-oxidant, anti-inflammatory and antibacterial properties, as well as essential daily moisturising and soothing protection - for any skin type, age or gender. Complete care package for all your skincare needs!

As well as being a very powerful anti-ageing and toning elixir, Miracle Balm also tackles various skin conditions. These include acne, eczema, psoriasis, dermatitis, rosacea and varicose veins.

Miracle Balm contains nine of the finest and most potent key ingredients that Mother Nature has to offer, and absolutely nothing else! These ingredients speak louder than words and contain not only all the known vitamins, minerals and essential fatty acids, but powerful enzymes and anti-oxidants which combat the emergence of free radicals in your skin by raising the amount of antioxidants in your bloodstream. This is done in a 100% organic botanical way without the use of chemicals, stabilisers, parabens, sls's, alcohol, perfume, colourants or any other like substances. As a result of this, Miracle Balm produces powerful results and is completely safe to use.

This is very important for our health because our skin, being the largest organ in our body, is semi-permeable. It absorbs and transports nutrients along with other matter from its surface directly to the bloodstream, inner organs and beyond. Most mass produced skincare products are filled with a myriad of chemicals which can disrupt vital functions of our endocrine system. This results in unnecessary secretion of hormones that carry out essential bodily functions and can lead to various allergies and skin conditions, as well as health problems which are not necessarily skin related.

Back to Nature Ltd is one of a very few UK companies who specialise in delivering 100% live organic nutrition to your skin by using cold-pressed extraction methods and unparalleled green practices. These methods ensure that the ingredients keep their fullest nutritional value without changing their original content. Back to Nature Ltd believes in providing the body with the best nutrition it needs to naturally heal and restore itself, by delivering only fresh unharmed live food directly to your skin.
