Charity Impact

The Ricky Hatton Foundation, founded by the late world champion boxer Ricky Hatton, supports disadvantaged young people and promotes mental health awareness through sport and community engagement.

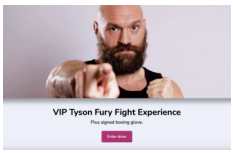

Mind, one of the UK's leading mental health charities, provides advice, support and services for those experiencing mental health challenges, while Manchester City in the Community delivers education, health and wellbeing programmes across Greater Manchester, using football as a tool for positive change.

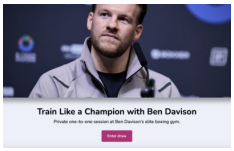

Together, the charities represent a shared commitment to improving lives through sport, wellbeing and community support.

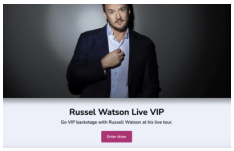

Speaking on the launch, uWin founder Jamie Baulch said:

uWin continues to expand its portfolio of exclusive prize draws, building on growing demand for experiential rewards that go beyond traditional competitions. The platform aims to connect fans with once-in-a-lifetime opportunities while supporting impactful charitable initiatives across the UK.

One example of this wider fundraising ecosystem is BIDAID, a silent charity auction platform which has supported the Ricky Hatton Foundation through the auctioning of exclusive experiences and memorabilia, helping to generate additional funds via high-value fundraising events.

Further prize draws and charitable collaborations are expected to be announced in the coming months as uWin continues its growth and partnership strategy within the UK market.
