

Veritek Global Secures ISO 9001:2015 Recertification Following Successful NQA Audit

Tuesday 4 November, 2025

Pan-European independent service provider Veritek Global Ltd, headquartered in Polegate, is proud to announce the successful completion of its third-year ISO 9001:2015 Recertification Audit, conducted by international certification body NQA Management Systems.

The rigorous four-day audit confirmed that Veritek's Quality Management System (QMS) continues to meet the exacting standards of ISO 9001:2015.

This recertification reaffirms the company's ongoing commitment to operational excellence, robust process management, and continuous improvement across all areas of the business.

During the assessment, auditors praised Veritek's culture of compliance and quality focus, stating: "During the audit process, Veritek demonstrated that the system is well implemented and understood throughout the organisation. This is reflected in the levels of compliance with requirements and operational control evident throughout the organisation."

Commenting on the successful outcome, Veritek Operations Director Colin Drury said, "This achievement is a testament to the hard work and professionalism of our entire team. Their dedication not only ensures we maintain high standards but also drives us to continually refine our processes and services. Guided by our values of accountability, trust, and partnership, we view continuous improvement as a cornerstone of sustainable growth and long-term success."

ISO 9001:2015 is the world's most recognised quality management standard, designed to help organisations meet customer and regulatory requirements while enhancing overall efficiency. Veritek's recertification demonstrates the company's resilience, adaptability, and focus on delivering high-quality service to its multi-national OEM partners.
