About Voices of Hope

[Voices of Hope](#) is a locally founded charity in Kingston Upon Thames with a focused reach into SW London. We are dedicated to bringing hope to individuals and the wider community, improving physical and mental health through community-based projects.

Our mission is to restore people, give them hope to rebuild their lives, and to equip them both practically and emotionally. We aim to achieve this through creative and inspiring projects focused in the 3 areas of Creative Arts, Food, and Women's projects.

We work with people struggling with complex physical and/or mental health issues, families experiencing food insecurity, women who have experienced abuse/domestic violence, and the elderly. We see those we reach as people who need support, encouragement and empowerment – not as problems which need solving.

Due to the impact of our work locally and our collaborative partnership approach, we are having a growing national reach through several of our projects.
