

## Work To Begin on Keystone Property Group's Birmingham PRS Project

Tuesday 17 September, 2019

**Work is set to get underway on one of Keystone Property Group's largest developer-lending private rented sector (PRS) projects.**

The build-to-rent (BTR) scheme, known as Holloway Head, is the group's third Birmingham PRS project.

Over 17-storeys, Holloway Head comprises 22 studios, 261 one-bedroom and 204 two-bedroom apartments. Along with 3960 sq ft ground-floor retail space, car parking and landscaped residents' courtyards.

In September 2019, Holloway Head was sold to Invesco in a forward funding agreement. Invesco is one of the world's leading investment managers, controlling over £800 billion worth of assets

The homes are expected to be managed by US BTR giant Greystar. With construction of the first phase of the development predicted to begin later in 2019.

Keystone Property Group's other Birmingham projects include Westminster Works, on which work began earlier in the year. Exited in 2018, investors were awarded an average 21% return.

Holloway Head will see the regeneration of a 1.3-acre brownfield site, which had remained vacant for 25 years. Planning permission was granted in May 2018.

Keystone Property Group CEO Desmond Conway said: "Birmingham is undergoing significant regeneration, enticing thousands to relocate to the city every year."

"With demand rising, there's a real need for high-quality living spaces in the city centre. That one of the world's biggest institutional investors has purchased the development, is a testament to the calibre of our developer lending projects."
