WORSLEY PLANT SHOWCASE THEIR GROWING RANGE OF RECYCLING EQUIPMENT AT THE BLACK ISLE SHOW

Monday 15 August, 2016

Worsley Plant is one of the UK's leading providers of materials processing equipment to the recycling, demolition, construction, landscaping and waste management industries. Wheel loader and excavator-mounted screening and crushing buckets, demolition attachments, as well as density separation equipment are all available for sale or hire nationwide.

At this year's Black Isle Show held at Mannsfield Showground, Muir of Ord, Ross Shire, IV6 7RS, Worsley Plant will be showcasing our comprehensive range of hydraulic attachments including **Crushing and Screening Buckets** from REMU and MB, as well as **Demolition Attachments** from Rotar, all ideal for use in recycling materials.

We will also be showing the **Fully Automatic Quickcoupler Systems**from Lehnhoff – the Variolock range. Changing any attachment is effortless, safe and fast. The operator can change any tool including the hydraulic connection at the touch of a button from the comfort of his cab.

Come and meet our dedicated Area Sales Manager for Scotland, David Marshall and our Expert Team who will be happy to answer all your questions and explain how they can save you time and money on your future projects. We look forward to meeting you on our Stand - E84.

Juliet Perrett, Worsley Plant's Marketing & PR Manager, comments: "All our product ranges can be configured to meet the criteria of just about every materials handling, waste processing and recycling application you may encounter. This level of flexibility means that most customers take delivery of unique solutions that have been created especially for their needs. Our unique products have a triple focus of recycling materials on site to reduce waste sent to landfill, increasing revenue from high value material collection, as well as providing benefits for the environment."
